### PROFESSIONAL EXPERIENCE

#### Career break | Full-Time Parenting

September 2021 – present

- Took maternity leave and transitioned to full-time parenting while staying engaged in professional development.
- **Developing single-page applications (SPAs) using React.js**, strengthening front-end expertise for future career opportunities.
- **Completing independent projects**, ensuring continued skill growth in JavaScript, WordPress, and performance optimization.
- Engaging in **online courses** and self-learning to stay updated with the latest front-end technologies.

#### Front-End Developer at UNILIME

July 2017 – August 2021 (remote)

UNILIME is an Award-Winning group of companies that represents years of versatile expertise in software development and web/graphic/product design.

- **Developed new custom themes** based on provided design mockups using HTML, CSS, JavaScript, PHP(WordPress) and other related technologies, helping clients become market leaders in their niche.
- **Made the markup of the websites responsive** and looking equally amazing on desktop and mobile platforms.
- **Customized WordPress themes** for small to mid-sized businesses, improving site performance and usability.
- **Enhanced SEO rankings** by optimizing images, minifying CSS/JS, and implementing schema markup, improving organic traffic.
- **Streamlined development processes** by writing reusable component-based code, increasing development efficiency.
- **Collaborated with cross-functional teams** (design, UX, strategy, and back-end development) to create high-quality digital experiences.
- **Performed cross-browser testing & debugging**, ensuring seamless performance across all modern browsers and screen sizes.

#### Front-end Developer at DIAS TEAM

April 2016 – June 2017 (In-office)

DIAS TEAM - Software Development and Consultancy Company, based in Ukraine.

- **Transformed website designs into fully functional, responsive web applications** using HTML, CSS, JavaScript, and related front-end technologies, empowering clients to achieve market leadership through high-performing web solutions.
- **Developed and customized WordPress themes**, enhancing usability and optimizing performance for client websites.
- **Ensured clean, semantic, and maintainable code**, prioritizing performance, accessibility, and best coding practices.

- **Conducted testing and debugging** to identify and resolve front-end issues, ensuring seamless functionality across devices and browsers.
- **Provided technical support and managed customer tickets**, proactively troubleshooting website issues to improve user experience.
- **Collaborated closely with designers and developers** to align front-end implementation with UX/UI requirements and business goals.

## EDUCATION

2014 Bachelor's Degree in Computer Science (**Software Development – Major**) - **SUMY STATE UNIVERSITY**
